

I am proud to be an American

I am proud to be an American
Where we stand strong,
And every time I think of it,
I know we've been in war for so long.

I see the flag
Stand so tall.
I thank the guys
Who laid their lives down for us all.

We are not just a country,
But we are a family.
We stick together
Through thick and thin,
But a burning of remembrance burns within.

So let it be known
That America is great.
With love and for the most part, peace
In each and every state

So many fought
Or even died for this piece of land.
For that we thank them
And we are proud to be an American.
